WORK EXPERIENCE

ML Infomap Pvt. Ltd.

July 2025 - Present

Software Developer

- Developing and maintaining responsive web applications using React.js and JavaScript.
- Writing efficient and reusable front-end code for dynamic, data-driven interfaces.
- Integrating SQL databases for data retrieval, storage, and management.
- Collaborating with team members in an agile environment to deliver high-quality features on time.
- Debugging, troubleshooting, and optimizing application performance.
- Participating in code reviews and contributing to best practices for clean, maintainable code.

PROJECTS

Centralized Safety Monitoring System for CPCL (eSafeview)

Client Project

Full Stack Development | React.js | MaterialUI | MSSQL | ArcGIS | Node.js

- Implemented role-based permit issuance to manage secure access control, approval workflows, and user responsibilities across the application.
- Integrated ArcGIS maps to visualize active permits and vehicle movement within the plant in real time.

Canvasly (Miro Clone)

In Progress

Full Stack Development | React.js | PostgreSQL | Express.js | Node.js | Sequelize

- Building a full-stack collaborative whiteboard using React, Node.js, PostgreSQL, and Y.js for real-time multi-user collaboration.
- Designing a scalable microservices architecture with JWT authentication, role-based access control, and independent PostgreSQL databases.

LegalGist

Full Stack Development | HTML | TailwindCSS | React.js | Supabase

- Developed an AI-powered legal document analyzer using Gemini 2.0 for PDF summarization and context-aware question answering.
- Enabled users to upload legal documents and receive concise summaries and interactive insights.

Password Manager

Full Stack Development | HTML | TailwindCSS | React.js | MongoDB | Express.js | Node.js

- Developed a secure MERN stack password manager with JWT-based authentication and encrypted password storage.
- Built a responsive, user-friendly interface with streamlined user registration and login.

EDUCATION

Bachelor of Technology in Computer Science & Engineering

Sep 2021 - Jul 2025

Dr. A.P.J. Abdul Kalam Technical University, Lucknow

SKILLS

- **Front-End:** React.js, JavaScript, HTML, CSS, Tailwind CSS, Angular.js
- **Back-End & DB:** Node.js, MongoDB, MSSQL, PostgreSQL, Express.js, Redis
- **Design:** Canva, Figma
- **Version Control:** Git, GitHub, Gitlab

ACHIEVEMENTS & CO-CURRICULAR

- Won 2nd prize in the inter college hackathon Hackspire
- Participated in Hactoberfest and Autocode Platform as Open Source Contributor
- Participated in College Mini Hackathon and also in Smart India Hackathon
- Core Organizer in College Technical Fest TechUdyam
- Managing the Film & Media Club as President, Inaayat(Dramatics Club) as Video Editing Head
- Finalist in IIT-D Rendezvous'23 graphic design competition, competing against 100+ teams.
- Participated in IFP(India Film Festival) 2022,23 in their 50 hours filmmaking competition
- Technical Core Organizer in College Annual Cultural Festival in 2024, 2023, 2022.
- Participated in IITD Rendezvous'24 short filmmaking competition
